Berth Parking - Maryland Port Administration Terminals

Per regulations documented within the Maritime Transportation Security Act of 2002 with oversight by the U.S. Coast Guard there shall be no berth parking at any terminals of the Maryland Port Administration (MPA). However, an exception will be granted if the vehicle parked at the berth displays an MPA issued Hang Tag; the name on the Hang Tag must match the vehicle's registration/license plate. MPA Hang Tags are issued by the MPA Office of Security upon sponsorship by a vessel operator/stevedore. A violation of this policy may result in the issuance of an illegal parking citation and/or towing.
